Dear Parents and carers,

Week beginning 26th September:

From 26.09.22 the Harold Road gate will be closed as building work commences in our Nursery playground. The building work should last no longer than a week, but we will inform you of when the Harold Road gate will reopen.

Nursery families will therefore need to use the Davington Road gate during this time. As Nursery start and finish times are different to the rest of the school, there will be special arrangements for entering and exiting the school. We ask that Nursery families be on time for the start and finish of your child's session to ensure the health and safety of all children.

Once inside the main playground Nursery families will go through the silver gates on the immediate right and all the way round the Reception playground to the rear Nursery door. There will be moveable fencing in the corner of the main playground so Nursery families can escort their children in and out safely. **Please ensure your children always stay with you to and from the Nursery door.**

Please do not let your children play on any equipment or fencing.

The **Davington Road** gate will be **OPEN** for Nursery families at these times:

- 8:30 – For AM and Full-time families
- 11:30 – For AM families
- 12:30- For PM families **Please note that the main school will be on their lunch break and children will be present in the playground. It is especially important during this time that you keep your child with you and proceed directly to the nursery door.**
- 3:30 – For PM and Fulltime children

We politely request that Nursery families who have children in other year groups should wait in the main playground.

Thank you for your cooperation.

Norma McNicol
